The Wolds Weighton Ward has the largest number of Parishes in the County. The Ward is served by 3 Ward Councillors. These Councillors represent the Ward very well and are in regular attendance at Council meetings provideing an invalubale service of liaison between the parish council and the County Council. Whilst it may seem to be beneficial in reducing the number of parishes in the Ward it is the commitment and service that the Ward Councillors give that is more important.

It would be beneficial if Ward Councillors had a mandate and a predetermined role in the minimum level of support that they supply to parish councils.
