Milnthorpe Parish Council wishes to place on record that it strongly objects to the proposal to change the W&F boundaries. It has been informed that the village will be linked with Levens and all areas in between. This appears illogical because the two villages will be in different parliamentary constituencies and surely this should not be the case.

Furthermore, Milnthorpe enjoys excellent relationships with Beetham and Arnside and there is often collaboration between the parishes on relevant matters.

The Parish Council would like more information about specific changes, prior to making a fuller response.
