Related subject: Charlemont with Grove Vale, Great Barr with Yew Tree

Charlemont (districts CHA, CHB, CHC, CHF and CHG) and Grove Vale (CHD and CHE) are two distinct areas (Charlemont is oriented towards West Bromwich town centre or Stone Cross for services, whereas Grove Vale is more oriented towards the Scott Arms) and as such it makes no sense for them to be combined. Similarly, Great Barr (GYB, GYC, GYD, GYE and GYF) and Yew Tree (GYA and GYG) have few links to each other, and have entirely different postcode areas (WS5 and B43) - Yew Tree again feels more oriented towards Walsall whereas Great Barr feels more oriented towards the Scott Arms and Queslett with regard to service provision. It therefore seems more appropriate to combine Great Barr with Grove Vale, and Charlemont with Yew Tree. As a resident of Charlemont, I use facilities in West Bromwich far more than facilities in Great Barr or Grove Vale.
