

# Westmorland and Furness

## Personal Details:

Name: [REDACTED]  
Email: [REDACTED]  
Postcode: [REDACTED]  
Organisation Name: (Member of the public)

## Comment text:

I trust that as part of this exercise you will use joined up thinking.

It is apparent that up and down the country, councils are hell bent on building new homes no matter what. As such, the number of houses built will dictate how many people live in a ward and will therefore affect the new boundary. To redesign a boundary to only change it again in a few years time seems more than a little stupid.
