**Related subject:** Olton

Hello,

We have received today notification that our road, Scott Road has been proposed to move out of the Olton Ward into the Lyndon Ward and would like to object to this move. Our Road Scott Road has a community feel and we have a child that attends St Margaret's Scott, moving the boundary of this area affects the school community feel it has with the church. As the Criteria to attend the school is to attend St Margaret's school this would make sense to keep them in the same boundary area.

With the proposal to move the boundary from Olton to Lyndon Ward this could also affect house prices in our area which would detrimental and a negative of the proposed move.

I'm not quite sure what the positives of this area. The information we have received refers to Lincoln Road North which does have a different feel to Scott Road - the residents of Scott Road should not be affected by a neighbouring Road.

I strongly argue you to reconsider this proposal and thank you for the consideration.

Kind regards
