**Related subject:** Olton ward

I am offended and appalled to learn that the Conservative Party have blocked the amendment to keep Richmond Road within the Olton ward and describe the crossing over of the Lincoln road bridge as crossing into another county. If they knew (or even bothered to learn about) the location, they would clearly see that Richmond Road is nowhere near the bridge at Lincoln Road North, and holds significant historical value in the Olton ward. The Victorian houses are the same as those on Lyndon road which one assumes does fit in with their vision of Solihull, yet we are to be 'downgraded' because of what can only be described as snobbery.

I have lived in Olton for some 23 years, doubled my mortgage for the privilege, and would like to ask how many of these conservative members currently live in the area, or even the West Midlands.

What does this mean for the families with school children who have moved into Solihull (like we did) to benefit from the education facilities... what about the impact on the house prices!!

Genuinely disappointed and upset by this proposal and hope this decision is not final.
