Related subject: Boundary Commission for Olton Wards - Lyndon

I have lived in Olton since I was born and my parents continue to live there many decades later. After I finished university, started working and saved enough for a deposit, I decided to buy my first home. I chose to buy a house in Olton because I love the area and community so much.

To suddenly change this area to Lyndon is a complete loss of identity for both me and my parents. When walking around the streets of Olton, you get the same friendly atmosphere where residents always smile and say hello. Neighbours help each other out and look after the more vulnerable ones. It creates a sense of safety in the area people call home.

From Olton Station to St Margaret's to Olton Primary School to the Park by Richmond Medical Centre; this is very much one community that should not be divided.
