Idiots in the Council - undemocratic decisions re saying Tytherington is not part of Macclesfield and reducing the area leaving us with one Councillor place - this is gerrymandering and no one has asked for our views .Also the council will not answer questions in meeting from members of the public unless we submit questions in advance - what a shower ie they want to prepare their answers and put us off Terrible when they also waste our money and take out loans they will never be responsible for paying back . I demand consultation on this - if Tytherington is not part of Macclesfield (this is our address) then where are we part of !!!!!!! Answers before this is ratified by this undemocratic bunch
