Related subject: Knutsford areas having different councillors

I do not agree with this idea. This will further separate the divide in knutsford between those living in areas around the high school and those living on Longridge. It's important to bring the wider community together, not divide it.

The issues shown in the leaflet I was handed this morning 'having someone directly answerable for maintaining roads, transport links and children's care' should not differ regardless of which knutsford postcode you have. A total waste of money to elect two people for one town. Spend that money on the roads!
