Comment text:

Related subject: Congleton

It appears to be ludicrous that the boundary for Congleton wards do not go out to the new relief road. The new houses being built on the Congleton side of that road are clearly part of the town. The occupants will use the facilities of the town and should have a democratic say on its upkeep. This is also true of the new houses off Manchester Road. This also has an impact on the parish councils surrounding Congleton, which have an excess of funds so levy a lower precept than the town which had the highest precept in Cheshire East. This situation does not reflect the reality of the situation nor is it fair.
