Related subject: Willaston

Why would it make sense to combine Willaston and Wistaston into one ward? Instead combine Blakelow and Willaston (and Wistaston with Wells Green/Rope if necessary). This would make sense. Wistaston and Willaston together sprawl too large an area to have combined views on issues which will just result in inabilities to reach agreements. Willaston and Blakelow share services and problems alike, it just makes sense. I can't think of one sensible reason for this change other than this commission looking at Willaston on a map and thinking it is small and inconsequential. We are a distinct village which would highly resent not being viewed as such. Do not do this.
