## Comment text:

Good afternoon,

I wish to register my objection to the boundary changes proposed by the boundary commission. Tytherington is a large community that generally have the same values and aspirations. The boundary commission propose to split off some parts of Tytherington and join them to other wards that may have different values and aspirations.

I support the East Cheshire Council proposal that retains Tytherington as a single entity with 2 councillors. The 2 councillors work closely together as a team covering all residents in Tytherington and residents benefit from this joint approach. I believe if parts of Tytherington are split off and the remnants of Tytherington only has 1 councillor, it will be impossible for that councillor to deliver the same excellent service that all Tytherington residents currently enjoy.
