Related subject: Willaston

Why do you want Willaston, which is currently WILLASTON and Rope to be joined with Wistaston and not have Willaston in the area name. It should become Wistaston AND WILLASTON. I live in Willaston and want the village to retain it's identity. I do not live in Wistaston. Change the boundaries if you must(not that it will improve anything) BUT don't erase Willaston's identity. Wybunbury, Shavington and Wistaston are retaining their names in the new council wards so it can't be too heard for the proposed ward of Wistaston to be changed to Wistaston AND WILLASTON. It is bad enough that the local area is being decimated by all the house building that is making a once rural farming area into nothing but a suburban sprawl BUT don't take away WILLASTON'S identity by simply not including it in a title. Make the area title actually reflect the area it covers Wistaston AND WILLASTON. Willaston is NOT Wistaston. Changing boundaries to apparently reduce the cost of councillors is all well and good but given that I have no clue what our local councillor (Alan Gage) has done/is going for Willaston I would prefer to know how they are earning their money and have their expenses much more closely regulated to make sure residents are getting value for money. I haven't seen or heard of Alan Gage in the village(or local prees) since he was going around canvassing prior to being elected.
