Organisation Name: (Member of the public)

Comment text:

I strongly disagree with the proposed plan to split Knutsford into two wards. It has not escaped anyone to see that the proposed plans will split the town more than it already is. It will cause more ostracisation when forming these boundaries and lead to more antisocial behaviour. You say the these plans will help with more representation in the respective areas and help engage the community in the 'North East' area but surely the funds that the plans will take can be put to other uses in the town. In my opinion, the lack of representation in the 'North East' area is not because there is a lack of voices wanting to be heard but the councils fault for not actively telling people where they can go or who to go to be heard.
