## Comment text:

**Related subject:** Knutsford

I am concerned about the proposals to split Knutsford in to two wards, one with 2 members and one with one member, and equally concerned about the proposals to split a town council ward, namely Cross Town, which was only created at the last elections, and would now be split again. This seems to be a case of gerrymandering to try to make the new wards more favourable to one party.

If the town does need to be split, please split in to three equal wards with one member each.

But my preference would remain to keep Knutsford as one ward, and leave the town council wards as they currently stand.

In summary;

- a) Knutsford Ward be wholly coterminous with the parish of Knutsford
- b) Knutsford be represented by a single ward electing three councillors
- c) Knutsford Town Wards remain unchanged.
