**Related subject:** Knutsford

The proposal to split Knutsford in two seems unnecessary and not well thought out. Firstly, Knutsford is not of a size that requires splitting - the town benefits from working together on the shared facilities. A split would remove this community approach and in fact most of the town facilities are located in the larger portion, so is the proposal that those in the smaller portion no longer have representation on these? Secondly the split itself looks uneven and frankly elitist. The smaller portion contains some of the lower cost housing and does not show any reason for being separated away. If this was truly about bringing benefits to Knutsford then the split would be more even across the town and the shared facilities. I strongly oppose this proposal for Knutsford.
