## Comment text:

We were in Mendip District Council but were conned into this Somerset Council, who are broke. We are now going to be screwed big time to cover the costs that others in far off parts have incurred. Someone in Taunton (I've heard of that place) will be making crazy decisions about my city, like stupid parking time limits and costs completely un-related to my town. Wells could benefit from getting out of this joke organisation. Our tiny City is precious and we have nothing in common with ghastly Bridgewater or Highbridge,
