## Comment text:

**Related subject:** Cheddar

I am a resident of Cheddar. Consider moving Axbridge out of the Cheddar ward. The two settlements are very different with residents of Axbridge not identifying at all with Cheddar. Cheddar is fundamentally different, with a much younger population that has different needs and I believe views from those of the much older population of Axbridge. I think both communities needs would be better served if Axbridge were to be moved into Brent (with suitable adjustments to Brent and King Alfred to accept the larger number of residents). Then Cheddar should be widened to include neighbouring villages along the A371 towards Wells, e.g. Rodney Stoke to balance out the population.
