Comment text:

I think Highbridge is under represented by Burnham and Highbridge Town Council. I would prefer to see the boundary of Highbridge take in the Apex park to the West and then follow the boundary line of Pilmore Lane to the East removing the Burnham South. Let this be joined with Burnham North. The towns are entirely different with Highbridge increasing in population with the new developments, the industrial centre growing and thriving, I would very much like to see Highbridge as an entity in its own right, ideally as a separate parish - this has been long overdue and would love for someone to actually take the residents of Highbridge's opinions into account. We are always fobbed off with 'we need Burnham' we don't.

Failing that move Highbridge to form part of Brent as we share the same postcode with many of the parishes.

Would be interested in your thoughts.
