I think the council wastes money hand over fist so the fewer people employed in offices to spend it the better. However, I don't intend to pay even more for less so I am against the joining together of Huish Episcopi and Langport. I will get nothing more but, more likely, less for the amount you already extort from me except the dubious honour of having more money demanded purely due to which side of the border I live. Council Tax is far too high for the services you provide, especially for the ones I do not use and I tend to have to pay extra to get a full service for the ones I do use.

I've read your pathetic excuses for wanting more money in Council Tax. If you were doing your job properly, you wouldn't need it. Give us more transparency in the awarding of contracts and costings.

Stop building on flood plains: it's bad for the environment.

Get rid of DEI projects. I want no more rainbows painted for Pride nor the NHS. They are expensive irrelevancies in a county such as Somerset, which has far higher priorities when it comes to keeping our heads above water, whatever our colour, disabilities, sex, religion, sexual preferences or fetishes.

DON'T MAKE CHANGES JUST BECAUSE YOU CAN. MAKE THEM BECAUSE THEY WILL BE BETTER AND CHEAPER FOR US.

PS: it's Maths. We aren't American.
