Woughton parish is an integral part of Tinkers bridge , we are one of the poorest and smallest estates in MK with strong social ties to all the other estates in Woughton, becoming part of the new ouzel ward would destroy the community in TB due to the reliance on Woughton . Also Milton Keynes is infamous for prejudice to the poorer original estates from both the council and public so we would not only lose all our facilities and events that binds our community together helping the elderly and vulnerable we would also lose our voice . Nobody wants to leave Woughton parish and it's a stupid idea that is only based on boundaries and doesn't take community into account
