Related subject: Tinkers Bridge

Good morning,

I have just learned of the proposed changes to the boundaries and Tinkers Bridge would no longer come under Woughton. I do not agree with this change at all. Tinkers Bridge and Woughton community council have worked very closely together and have created such a beautiful community on Tinkers Bridge. Thanks to the community council we have grants for yearly trips, community events, the community fridge and the warm room in Winter months too. These services are absolutely vital to my community. They have enabled my children to visit the seaside, as I don't drive but they arranged coach trips. The community events, like the Christmas events and Santa visits are part of our families traditions. It's all my children have known their whole lives. Woughton listen to our views and we are one community alongside our estate neighbours. Please don't remove us from their boundary.
