Comment text:

What a completely ridiculous proposal to put New Bradwell with Hanslope and Castlethorpe which is full of rich villagers, New Bradwell is anything but a rural area it's very much part of an inner city area with a lot of residents on low incomes and benefits, this proposal has obviously been conceived by someone that doesn't have a clue of the residents wants or needs. New Bradwell needs its boundaries to stay part of Wolverton as they share so much alike. This new boundary proposal gets a massive thumbs down from every resident that lives here. We're not rural we are city people and always will be.
