## Comment text:

**Related subject:** Village of Moulsoe

I am commenting on the Review of Ward Boundaries in Milton Keynes and, in particular, the proposals relating to the Village of Moulsoe.

As a recent new resident of Moulsoe, I have been very impressed with the village and rural community spirit of Moulsoe, which has welcomed me and made me feel at home. Having previously been resident in Newport Pagnell, I found this to be a welcome surprise. I regularly attend the Moulsoe Parish Council meeting and am knowledgeable about the local proceedings.

I think it would be a mistake for Moulsoe to be included the same Ward as Broughton and Milton Keynes Parishes as these urban and mainly transient areas share little in community with the village life of Moulsoe. The local needs of Moulsoe would be vastly overshadowed by the different needs of these other areas and Moulsoe would be lost in the urban requirements of the rest of the Ward.

If the only sticking point in splitting the Parish is a clear boundary, may I suggest that the boundary road around the new MK East development would be a good place. That new development will have everything in common with Broughton and Milton Keynes Parishes. Moulsoe would be a better match with Olney and other rural communities..
