Related subject: New Bradwell

I think considering New Bradwell as “rural” is completely wrong. We have significant issues that are not in the slightest experienced in the rural majority you have grouped us with in this proposal. The electors in Hanslope and Haversham will not be making choices based on the significant issues caused by wheelie bins, poor parking, anti social behaviour, economic deprivation and overcrowding of Victorian houses through house shares etc that we experience in our part of the ward. The ward councillors serving either Stantonbury or Wolverton would be dealing with similar issues and would therefore be more suited to working with New Bradwell. We feel quite forgotten at times and this does seem to highlight that. Please reconsider.
