## Comment text:

**Related subject:** Campbell Park and Willen

I think this boundary perfectly describes the area I live in. It includes to the east the local middle school and to the west the furthest I, and many others, walk on a regular basis. To the north and south it includes the estates adjacent to Cambell Park, which most use the park both for leisure and for a walking route to the shops in the city centre. I can't think of a better way to describe the community that I feel part of and in which I have lived for 40 years.
