**Related subject:** Stainsby Hall Farm

My major concern with the area I live in is the fact that we have a Stockton Postcode.

All our correspondence via the Post Office is sent from Stockton, we have no connection to Middlesbrough so we receive all Government and Local Council issues associated with Stockton and nothing concerning Middlesbrough, ie local elections or Middlesbrough news. Considering we pay Middlesbrough council tax it's the least we can expect.

Since the construction of the Brookfield estate we have had nothing but problems with satnav and postal code problems. Is it possible for our code to be changed with this change round.

As for a comment regarding the lane from Low Lane.

This is a public right of way but a private road.

That's why at the end of the bridge it states No Public Right of Way.

What we do get now are lots of people along with their dogs walking along the lane and lots of discarded dog poo bags along with the litter.
