Related subject: Cradley heath & Old Hill

Cradley Heath and Old Hill lie in a well defined geographic area being bordered by The River Stour and the steep ridge which rises to the Rowley Hills. This gives our ward an identity which has been further defined by a shared history.

The ward has a diverse ethnic mix and local religious and cultural organisations have by their combined efforts enabled the population to live in harmony.

I feel that this unity and sense of identity is worth keeping and defending. Therefore, I would urge the commission to retain the boundary as it is and remove the uncertainty which the proposed changes have brought about.
