I think the review has been done very well but I would like to represent the views expressed by the parish councils in both Tebay and Orton. They would much prefer a single member ward rather than a two member ward that straddles the Howgills. They have said: Both Orton & Tebay Parish Councils consider that there should be a single member ward for Orton, Tebay and surrounding villages rather than a two member ward that also includes Sedbergh. Residents in Orton and Tebay consider that the two villages have strong links with each other but not with Sedbergh. They also consider that the proposed two member ward is too large.
