**Response**

The information you have requested is not held by the Commission as our work has no direct impact on the local environment. The Commission does not own or have responsibility for any sites and is does not undertake any surveying or drainage works.

With regard to procurement of services and engagement of suppliers, the process depends on the level of expenditure. Where expenditure is over £50k, the Commission follows a competitive tender route and we utilise a government framework or procedures set out in public contracts regulations.

If you have any further queries, please do not hesitate to contact me, quoting the reference number above in any correspondence.

If you are unhappy with the response or the way in which your request was dealt with and wish to make a complaint or request a review of our decision, you should write to:
