

# WIRRAL

## NEW ELECTORAL ARRANGEMENTS

September 2025

### Currently there are:

- 66 councillors
- 22 wards
- 3 councillors per ward

93 residents and organisations  
helped shape our recommendations

We aim to make sure Wirral  
councillors represent a similar  
number of electors

### Currently there are:

- Four wards that are more than 10% away from the average number of electors per ward
- No wards that are more than 30% away from the average

### From elections in 2027:

- 65 councillors
- 21 three councillor wards,  
one two councillor ward

### Wirral will move towards:

- One ward being more than 10% away from the average number of electors per ward
- Each councillor representing an average of 3,934 electors
