Related subject: North Wirral draft bandings

The far end of Mosslands drive next to Wetherhead school, and the adjoining hill streets (Foxhey, Mossdene, and Westbourne) off Breck road are all noted within the “Liscard & Egremont” new draft area. However, this area isn’t either Liscard or Egremont, they are in Wallasey and should be included in the “Wallasey” banding. If you google the school, it clearly says it’s in Wallasey, so everything to the west of the school off Breck road should also be included under Wallasey.both Liscard and Egremont are completely different areas and always have been.
