Related subject: New Ferry

New ferry has been split in half. In light of the issues surrounding the explosion and that it took years for anything to get approved to be done with the site I feel it would be best if it was grouped to be under one ward. We would then have 1 local councillor/ward to go to rather than two different ones.

The split happens in my road and it's not clear which side I fall on however I don't feel that Bromborough councillors will have new ferry at the heart as they will be focused on boosting the retail park and industrial area. Rock ferry councillors will be focused on rock ferry and the work that can be done at the docks.

If anything, bundle the whole of new ferry with rock ferry and rename to include new ferry in the name.
