Under the proposed changes in North Yorkshire Councils Councillor constituency boundaries Thornton le Moor is to be included in the Thirsk councillor constituency. Thirsk is an urban area which influences planning considerations. Thornton le Moor is a small rural village in open countryside with no "corridor" links to Thirsk. Future development should not be influenced by the suggestion that Thornton le Moor is in anyway part of the Thirsk conurbation or has any strategic links. Thornton le Moor should remain as part of the Hillside and Raskelf division among other nearby countryside villages with which it has strong local connections.
