Related subject: sherburn in elmet

I am opposed to the change in boundaries for the 2027 election.

Residents of a small part of Sherburn in Elmet did not want to have a different councillor, in a rural division that could potentially run across parliamentary constituency boundaries or the middle of roads. The councillor for the Sherburn in Elmet division would be unable to act for any parts of the current village, even on local issues - so ridiculous how could anyone even suggest something so obviously stupid. I presume potentially planning applications for what are currently Sherburn in Elmet properties may fall outside the interests of a councillor primarily representing the village, which could see a different councillor having input on applications which primarily affect the village. We have a strong community and someone who is not local, does not put our interests first or is involved with the community will be worse than a waste of space. A freeloader, having input but not being accountable. DO NOT DIVIDE OUR COMMUNITY for the purpose of doing something that looks good but does not work.
