Comment text:

Dear Sirs,

Please see our response to the latest proposals for the boundary changes, with particular reference to our constituency of Harrogate and Knaresborough.

- On first reading, the latest proposals for our area appear modest and pragmatic.
 - In Harrogate & Knaresborough the suggested alterations look proportionate to recent population changes.
 - The draft map's approach to bringing Jennyfields and Killinghall Moor together is sensible: these communities sit within the same local geography and share services.
 - The Commission's objective to equalise elector numbers is understandable. New housing across parts of the district has shifted population balances since the last review.
- Kindest regards

Jonathan Swales
