Postcode: [REDACTED]
Organisation Name: Fulford Parish Council (Councillor)

Comment text:

Related subject: Fulford

Boundaries should fit neater with existing parish council boundaries. City councillors' wards shouldn't span across different parishes and they divide their attention between different parish councils. Wards should directly reflect the parishes in which they sit. Ideally council wards should not have more than one councillor representing them. It should be one councillor per ward, even if it means reducing the size of the wards to accommodate this arrangement.
