## Comment text:

**Related subject:** Three crosses

I'm not sure what the purpose of this exercise is in truth as it is said the number of councillors is to remain the same. So in reality we are spending money to "dance on the head of a pin"

If changes are suggested I would think that is the point to get public consultation, rather than now.

Any changes MUST ensure that the ward has a commonality, in that it has to be rural OR suburban, as each face different challenges the representative shouldn't be torn in their duties of who to represent
