## Comment text:

Use the A66 as a clear and natural division between wards. On the stretch around Morton Park, this should be used as the differentiator between an urban and a rural ward. This may mean splitting some current divisions like SMH and HUC to align, but I think this is pretty uncontroversial within the town.

More controversial would be splitting the A66 towards Stockton - i.e. separating out Sadberge from Middleton St George and creating new divisions in place of SMG, SMH and SMF. Middleton St George could probably be incorporated into Hurworth to make a ward that represents two similar large villages. Sadberge (north of the A66) could then possibly be incorporated into a rural ward to the north of the town if changes were made to Heighington & Coniscliffe ward.
