## Comment text:

**Related subject:** Geogracal area

Fishergate/Heslington and Fulford wards should be combined. Although the area covered by Fulford is large - much of it is rural in character. Fishergate/Heslington is more densely populated. Fishergate/Heslington and Fulford share demographic characteristics - both provide homes for employees at the University of York and students at the University. Note a combined ward would include residents in both York Outer and York Central. This is already the case with Fishergate/Heslington.
