Halewood South currently is in the process of urban expansion with 1500 homes being built and occupied over the next few years which is likely to see a resident increase of around 3000 residents which will make the ward work for councillors incredibly challenging. Halewood North and South are already among the highest electorates for Wards in Knowsley following the previous ward boundary changes in 2016 and I would like to see these moved back to either 3 wards or the boundaries for North and South to be readdressed to bring parity between the two.
