When I'm accessing my community where I grew up in I'm shocked to see how it's become since lock down
Dog poo everywhere cars parked on the sides so you cannot walk on the pavement can s parked on corners bends and roundabouts by my local
school is double yellow and people know nothing will happen so they still park there it's a wonder a child has not been hurt
work vans being parked up with rubbish still in it
councillors doing what what are there getting paid for I feel over paid tax has gone up yet we see no improvement in policing these small
important things
