**Related subject:** Traffic management (roads and highways)

The Traffic on Pilch Lane/Pilch Lane East is so bad from 6.30am-9am then 3pm-6.15pm every weekday! This backs up and causes delays in both directions and has a knock on effect on Roby Road and the Bowring roundabout and M62 slip road. It's a joke and even reported to council via email and on complaint form and no one is owning the problem or even acknowledging receipt of the email or complaint. I hope the boundary change means this could come under Liverpool as they might actually consider a one way system or something. Lack of engagement means Labour won't be getting future votes as we're all fed up around this area.

Can't access local facilities as you can't get off or on your drive! Let's hope someone doesn't die because an ambulance couldn't get there in time!
