Dear whoever

You adjective for reviews regarding the proposed changes Here's mine

Halewood has been completely ruined by Knowsley council. Bike lanes that nobody uses. Constant road works yet the roads are full of pot holes. Sold all our green spaces. The traffic from all the extra houses built is killing the population with the high levels of omissions. The biggest insult no local election this year. I think your days as councillors are numbered let democracy work total shambles.

Read social media the public are beyond anger. Reinstate this years elections WE want our say

I've escalated my views to the bbc, other locals have escalated there views to the local media we will not be ignored Regards
