Comment text:

Related subject: Northern Rail

I have lived in Prescott for more than twenty years. We now have four new housing developments which are three and four bed homes. Why is it we only have two hourly trains an hour on a Sunday, and half an hour during the week. if I lived in Huyton I would have a service every fifteen minutes.

As you know we now have The Shakespeare Theatre. I think it must put visitors off.

Opposite the train station on Bridge Road there has been waste land there for more than twenty years. What going to happen to it. Anyone visiting our town being greeted by this coming from the station.
