## Comment text:

**Related subject:** Easton as a local term

Easton as a socially defined area is made of LAW:AB&C and EST:ABC and the upper half of ESTD. ESVC and Greenbank cemetery are also linked to this area. Lawrence Hill is not much of a socially defined area, so I would not advise it being used as a ward name - it is only the area around the LH roundabout. Redfield and Barton Hill are two socially defined areas around LAW:F,H, EST:F&G and SGWC. I believe from a community perspective the north/south divide is more coherent than the east west divide, and with a new neighbourhood to be delivered in St Phillip's marsh (LAWG and LAWH south of Feeder) it may be prudent to make a division here instead of preserving the current configuration.
