Organisation Name: Bristol City Council (Councillor)

Comment text:

Related subject: Brislington East ward

Brislington East ward is bounded by the river Avon on one side, and the A4 passenger corridor on the other. Its present boundaries are within the variances set out (-1%) and so I would recommend that the ward remains as it is. Two major communities exist within the ward - St Annes and Broomhill. Both have a significant identity with local people and it would certainly be detrimental to divide these communities in any way. Brislington itself is an odd shaped area, and it is hard to see how any minor changes to the current structure would be of any benefit to residents themselves.
