Narrative for boundary changes within the Bristol South Parliamentary constituency.

Both Hartcliffe & Withywood and Hengrove & Whitchurch Park will stay as three member wards, with movement from the latter to the former of around 300 voters around Teyfant – I cannot be more specific as Contact Creator is not working for me plus the polling district which includes Bridge Learning Campus (formerly Hartcliffe School) and is within the Hartcliffe Pride in Place programme area.

The new ward of Ashton contains Ashton Vale, Bower Ashton and Ashton itself, all long standing communities with ties of family, schooling and social interaction. It also contains Ashton Gate Stadium, home of Bristol City FC and Bristol Bears RFC.

Bedminster ward has been amended to include parts of Bedminster which had previously been in other wards. The significant use of the bridges across the rail line reflect the closeness of the communities on both sides, this foot traffic reflects shared, education, retail and employment. provision.

Windmill Hill & Totterdown is a more appropriate name for the geographically smaller ward, both are communities with a strong local identity often associated with the use of Victoria Park, this is shared with those living immediately to the south on the other side of St Johns Lane.

Southville ward better represents "real" Southville, the location of Southville Primary school, the Southville Centre and other provision, with the regeneration zone to the east towards Bristol Temple Meads.

Filwood ward returns to its former boundaries in the north, with that boundary on the northern slopes. There is a very strong community identity within the specific communities of Inns Court, the Novers, Filwood and Knowle West which make up the ward.

Bishopsworth is largely unchanged – reducing slightly with the loss of the Parson Street one-way system – which is widely regarded as in Bedminster. There is also some tidying up to the south, with some roads moving to Hartcliffe and Withywood.
