I have put to two complaints in with the housing omnibus man, 1st was upheld over the delay of a house exchange which fell through due to length of time (16 weeks should of been 4/5 weeks) i was told lies amongst other things also when the omnibus ruled and given 4 weeks to what was ordered at the end of 4 weeks not heard from them got in touch with omnibus again they gave a 2 week to do as ordered again not heard any thing got in touch again only then did they do as ordered?, 2nd is about the discrimination i received from contractors and the council ie me and my wife are both disabled, at the time my wife had not long come out of the Bristol Hospital, the contractor kept parking in front of my car which was in a disabled bay with the badge on show, explained a number of times as to why they should not park in front of my and why i needed full access to no avail same with the manager contract again kept on parking their, complained to the council stage 1/2 who said it is ok to park in front of my car? even thought their was plenty of spaces available and also left rubbish in front of my gate to which i trip on and fell over, did not have this problem with any other contractor, this was because i stood up for my self i told no lies unlike Bristol Council again this has been taken up by the housing omnibus man should hear some thing soon.

Bristol City Council only seem to be interested cyclepaths, blocking of roads with flower pots and the disruption of traffic seems to be there only interest.
