Related subject: Council Boundary

Bristol's boundary does not reflect reality.

At the very least, Kingwood to the west, and Filton to the north should be included in the boundary of Bristol. They are part of the contiguous built-up area. These areas are part of Bristol.

We might consider using the A4174 ring road as the Bristol boundary, but it would be even better to extend Bristol north to the M4 and west to the 'Bristol' channel. The current boundary is anomalous and absurd.
